

## Assignment 2

Checklist:

- CSS should make use of classes and inheritance

```
.todo-container li > p {  
  font-size: 18px;  
  width: 230px;  
  padding: 0 0 0 20px;  
  font-family: inherit;  
}
```

- Functions

Functions contains edit, add, delete todo list items

- Generation of information (e.g. date)

```
var time_p = document.createElement("p"); //time added  
var time = new Date();  
var time_string = time.Format("yyyy-MM-dd hh:mm:ss"); //format the Date  
todo1.appendChild(time_string);
```

- Node manipulation (create node, clone node)

Edit, add, delete todo list items

- Attribute or node value change

Edit todo will change the value
